

Hurricane Recovery Update

As work continues on the property, I will be taking photos that will be shared in the Hurricane Update section.

J Bolt has installed an updated project board, now located on the exterior patio wall of the clubhouse for everyone to view.

Per homeowner requests at the recent board meeting, J Bolt has replaced the locks on all doors. These are not additional locks, but replacements. Only myself, a board member, and J Bolt will have keys.

Please feel free to reach out with any additional concerns.
